

Chartered Banker

PERSONAL

AND PRIVATE

BANKING

Advanced Diploma in Banking and Leadership in a Digital Age

Level:

SCQF Level 9/EQF Level 5/6

Credits:

30

Qualification to which module contributes:

- *Associate Chartered Banker Diploma*
- *Advanced Diploma in Banking and Leadership in a Digital Age*

Module Version 1

AUDIENCE:

Current or aspiring bank employees; although not essential, prior banking qualifications, for example the Institute's *Professional Banker Certificate* and *Professional Banker Diploma*, would be an advantage, as would knowledge of formal academic methods.

AIM:

To develop the learner's knowledge, understanding and skills relating to the personal and private banking environment in a digital age, considering the key drivers of change, the challenges faced, and the impact on banks and customers of technological developments and regulatory changes, particularly in relation to bank business models, delivery channels, and the ways in which customers engage with their banks. The learner will develop their ability to build trust-based relationships with customers, appraise the creditworthiness of a personal customer, and propose suitable products and services to meet customers' needs in a competitive marketplace.

LEARNING OUTCOMES:

On completion of this module, the learner will be able to:

1. assess ways in which retail banks can anticipate and prepare for the impact of external trends and influences in providing high quality, cost effective services
2. provide a rationale for how personal and private banking services are managed and distributed through a diverse range of customer channels

3. assess what constitutes best practices in consumer lending with a focus on credit appraisal, types of available security and the recovery of money in bad debt situations
4. examine the impact of legislation, regulation and supervision on bank culture, conduct and governance
5. critically analyse the role and impact of technology in the evolution of the personal and private banking environment
6. critically analyse the role of a private banking relationship manager and evaluate the proposition in terms of value creation for both the customer and the bank.

DELIVERY METHODOLOGY:

Personal and Private Banking has six units. The learning approach includes:

- reading and self-study
- self-assessment and reflective activities
- case studies
- online discussion forums
- online knowledge checks at the end of each unit
- applying learning at work
- reviewing and reflecting on current practice
- creating a personal development plan to develop the learner's skills and further enhance their professional practice.

LEARNING RESOURCES:

Learning resources include:

- an interactive study guide in pdf format
- text books and online resources for core reading
- recommended further reading and resources.

ASSESSMENT:

Personal and Private Banking is assessed by a 6,000 word work-based assignment designed to transform theory into practice and ensure a close fit between professional qualification and business need. Completing the assignment will enable the learner to demonstrate their achievement of the module learning outcomes, as well as their understanding of banking in a digital age and their application of professional values and behaviours. Formative assessment is provided in the form of online objective testing at the end of each unit.

Module Version 1 (Cont'd.)

UNIT 1: THE PERSONAL AND PRIVATE BANKING ENVIRONMENT

Learning outcomes	Assessment criteria	Indicative content
<p>The learner will be able to:</p>	<p>The learner can:</p>
